

2 phase High Pressure Separator

The WSG Industrial Services two phase high pressure 7,5m³ separator is fitted on a rigid skid and is designed to separate liquid from the gas stream. The separator is constructed to withstand a gas stream operating pressure up to 90 bars and is designed according to PED 97/23/EC.

Approval: The unit is Lloyd's certified according to ASME B31.3 ed 2006 standard.

Typical applications:

1. Production separation
2. Gas and flare scrubber
3. Slug catcher
4. Knockout drum

The unit is perfectly suitable for temporary pigging activities; for pre- and decommissioning pipelines, cleaning and intelligent pigging operations.
