

Coiled Tubing Special Spooler Reel

Coiled Tubing Reel

- The reels used are pipe manufacturer build able to hold long lengths or large coiled tubing up to 2 7/8" coiled tubing pipe and 50 ton total weight.
- Reels and Spooler frame are transported separately which means less weight on the road and for offshore crane limitations.
- The spool is transported as stand-alone and is will be placed in an anti-roll skid.
- Assembling the Reel and Skid is complete hydraulically operated and without touching the drive mechanism from the reel.
- Weight from spool and coiled tubing will depend on pipe size and pipe length.
