

Skid Mounted Ambient Vaporiser

The Industrial Services natural draught ambient vaporiser is fitted in a container frame and is designed to vaporise liquid to gaseous nitrogen. The vaporiser is constructed from aluminum and is welded according to Euronorm 287/288.

Nominal capacity: 2 * 850 Nm³/hr
 Max. Working pressure: 40 bar

Connections:

LN2 = NIT 150
 GN2 = 1" NPT

The unit is designed and constructed according to PED 97/23/EEC module B and D. and includes CE marking.

Typical applications:

Purging
 Blanketing
 Pressure testing
 Drying

The unit is perfectly suitable as a stand-alone nitrogen source; It does not need fuel, nitrogen operators and is very reliable. It simply operates by opening a valve.
