

Trailer Mounted Nitrogen Tank

Onshore Nitrogen Services

The self-supporting Liquid Nitrogen Trailer is ADR & DNV approved and suitable to load its Liquid Nitrogen content at available cryogenic plants all over Europe.

This will secure the Nitrogen volumes required and make Coil Services operations total independent of any logistical issues arising or availability of liquid nitrogen resulting in substantial delay.

Nitrogen Tank is mounted and operates from a trailer chassis by use of conventional 20 ft Container lock connections. Compact trailer design for easy access to small locations.

Nitrogen Tank (ISO Container)

Liquid nitrogen transport tanks ISOVAC 5500 @196C. Capacity net 19.538 ltr liquid Nitrogen.

Maximum working pressure 17 or 24 Bar.

Super Insulated under vacuum.

Double isolation valves. Double relief valve safety system fitted.

Drip trays.

Liquid Nitrogen connections: NIT 150.

Certification

RID, ADR, IMDG, IMO
